27 May 2021

1- OBSERVATION / CONTEXT

- Reminder regarding report 5V327_IRRA003_UNRE:
 - In accordance with report 5V327_IRRA001_INTI, the assignment aims to implement architectural solutions for non-residential buildings (offices, factories, schools, administrative buildings, etc.) in order to bring a substantially positive impact on the physical and psychological health of the persons using it.

2- OBJECTIVES

- According to report 5V327_IRRA004_PLST:
 - Push architects in the targeted sectors to integrate, among other disciplines, radionics and geomancy into their working methods.

3- ACTIONS

- Oct. 2018: Fox units have been selected and start their training (refer to report 5V327_IRRA005_REFO).
- Jan. 2019: deployment of Fox units in architects' networks in the targeted sectors.
- As from Feb. 2019: Fox units lobby in these architect structures to convince their members to study and experiment methods such as radionics and geomancy as part of their running activities.

4- RESULTS

- At first, most of the architects were quite reluctant, as noticed by all the infiltrated units.
 - Most of the architects are naturally strongly Cartesian. The methods are easily labelled 'esoteric' and therefore very poorly considered.
- However, some experienced architects have finally agreed to take it into account:
 - Their results were all irrefutable. They have noticed the strong impact of these methods on human physiology.
 - These architects were able to share their own experience with their peers.
 - Due to their reputation, it is easier for them to convince, which is a clear asset to support our lobbying strategy.
- Fox units will continue lobbying as planned, until further notice.
