1- OBSERVATION / CONTEXT

- Excerpts from report 5U744_IRRA005_UNRE:
 - Our Raven units have discovered a vast and complex “chemical social hacking” network, built and consolidated over several decades.
 - Goal: increase population control.
 - According to report 5U744_IRRA002_UNRE: high-level chemists have been recruited by private interest groups to develop molecules that cause all types of very specific emotional and psychic effects on Human beings.

2- OBJECTIVES

- Neutralise the additives' molecules effects on human physiology.

3- ACTIONS

- According to the strategic plan established in report 5U744_IRRA006_PLST:
 - January 2019: creation of special Owl units, made up of high-level chemists recruited from around the world (cf. 5U744_IRRA007_REFO).
 - June 2019: replacement of the original chemists (recruited by the sponsors of aerial spraying) by the Owl units.
 - For confidentiality purposes, the minimum possible information was transmitted to them.
 - Beginning of the molecules modification work.

4- RESULTS

- February 2021: All molecules currently in use have been neutralised by Owl units.
 - In order to maintain total discretion, the new molecules and the originals are isomers: it neutralises the molecules effects while making them look similar to the originals.
