1- OBSERVATION / CONTEXT

- Extracts from report 5U744_IRRA005_UNRE:
 - Our Raven units have discovered a vast and complex “chemical social hacking” network, built and consolidated over several decades.
 - Goal: increase population control.
 - According to report 5U744_IRRA002_UNRE: high-level chemists have been recruited by private interest groups to develop molecules that cause all types of very specific emotional and psychic effects on Human beings.
 - According to report 5U744_IRRA003_UNRE: the mass production system for laboratory-developed products is particularly well built.
 - Some large infrastructures are distributed throughout the world.
 - A “redundancy” has been provided to compensate for any failure of one of these factories.
 - It keeps the system 100% operational permanently.

2- OBJECTIVES

- Create neutral molecules additives production plants (see report 5U744_IRRA008_REDE).
- Close harmful additives production plants.
- Simultaneously open neutral molecules additives production plants.

3- ACTIONS

- According to the strategy defined in report 5U744_IRRA006_PLST:
 - February 2019: the Raven units establish contact with Elon Musk to offer him cooperation in the new plants creation.
 - March 2021: recruitment and start of training of Panther teams (see report 5U744_IRRA009_REFO).
 - October 2021: activation of previously formed Panther units.
 - Extremely efficient legal actions aimed at a rapid closure of harmful gas production plants.
 - Opening of neutral additives production plants.
 - November 2021: effective closure of harmful additives production factories.
 - Panther units must communicate the plant's addresses change to the first intermediary in the substance routing network.
 - It did not raised any form of suspicion: the information was received as trivial due to the molecules' isomerism (cf. 5U744_IRRA008_REDE).

4- RESULTS

- Since November 2021, all existing biocidal additives have been completely and definitively neutralised in terms of effects on Human beings.

14 June 2022

- Note: a total shutdown of chemtrails would put the current system on alert, which would be detrimental to the rest of our operations.
